

Viktor Mayer-Schönberger

Viktor Mayer-Schönberger is Professor of Internet Governance and Regulation at the Oxford Internet Institute / Oxford University. He is also a faculty affiliate of the Belfer Center of Science and International Affairs at Harvard University.

He has published eight books (most recently *Delete: The Virtue of Forgetting in the Digital Age* with Princeton University Press, also translated into German and Italian) and is the author of over a hundred articles and book chapters on the governance of information.

After successes in the International Physics Olympics and the Austrian Young Programmers Contest, Dr. Mayer-Schönberger studied law in Salzburg (Mag.iur, '88, Dr.iur '91), Cambridge (UK) and Harvard (LL.M. '89). In 1992 he received a M.Sc. (Econ) from the London School of Economics, and in 2001 the *venia docendi* on (among others) information law. In 1986 he founded Ikarus Software, a company focusing on data security and developed the Virus Utilities, which became the best-selling Austrian software product. The recipient of numerous awards for innovation and entrepreneurship, he was voted Top-5 Software Entrepreneur in Austria in 1991 and Person of the Year for the State of Salzburg in 2000.

He has chaired the Rueschlikon Conference on Information Policy in the New Economy, bringing together leading strategists and decision-makers of the new economy. He is the cofounder of the SubTech conference and from 2003-2006 served on the ABA/AALS National Conference of Lawyers and Scientists.

He is a frequent public speaker, and a sought out expert for print and broadcast media worldwide. He and his work have been featured in (among others) *New York Times*, *Wall Street Journal*, *Financial Times*, *The Economist*, *Nature*, *Science*, NPR, BBC, *The Guardian*, *Le Monde*, *El Pais*, *Die Zeit*, *Süddeutsche Zeitung*, *Der Spiegel*, *Boston Globe*, *Los Angeles Tribune*, WIRED, *Ars Technica*, *Daily Kos*. He is also on the boards of foundations, think tanks and organizations focused on studying the foundations of the information economy, and advises governments, businesses and NGOs on new economy and information society issues.
